

DIGITAL BALLOT AUDITMARK®

Dominion's exclusive AuditMark technology is a unique, patented visual audit trail, which allows results to be audited down to each individual ballot. This technology allows jurisdictions to provide greater transparency in the electoral process. The AuditMark® can be used for visual inspection or in Risk-Limiting Audits. Once the election is complete, all of the ballot images are in one location for the purpose of searching, reviewing and performing Risk Limiting Audits. Dominion can provide tools to be able to efficiently perform these types of tasks.

Dominion Voting has created a patented process that not only images and stores a copy of the ballot, but also records on that image how that ballot was counted by the scanner on Election Day. Using this process, the comparison can easily be made by any Election Official.

Ballot image with audit trail:

This is a sample ballot image for a ballot processed by the system. All ballots are imaged and stored for auditing purposes. The image contains:

1. Image of front side of ballot (if the reverse side of the ballot is used, the image is also captured)
2. Clear image of all text, ballot identifiers, candidates and voter markings.
3. AuditMark: Ballot-level audit trail feature showing the results interpreted by the system for this ballot.

FAMOUS NAMES Demonstration Ballot

To VOTE: Completely fill in the oval , next to your choice like this . Mark with a blue or black ink pen, or with a pencil.
