

WE'RE HIRING!

QA Analyst I - Belgrade

Dominion Voting is searching for a motivated and passionate **QA Analyst I** to join our team in Belgrade! This position will be responsible for ensuring that all products and services comply with all regulations and required functionality; and verifying that all products and services either meet or exceed the requirements specified by the customers and guaranteed by the company.

Responsibilities

- Conduct all levels of testing including regression, sanity, integration, acceptance, load and stress testing for products.
- Review documentation to understand testing requirements.
- Using System Requirements and System Design Documents, write, maintain and execute automated and manual test cases, test scenarios, and test scripts.
- Execute test cases to ensure accuracy, record test results, identify and document bugs.
- Communicate with QA team members and work with development team to resolve bugs/defects.
- Assist in the preparation of test result walk-throughs and present to product owner.
- Utilize appropriate tools for defect tracking and issue resolution.
- Review and verify documents (TDP, User Guide).

Qualifications

- Bachelor's or Master's degree in Electrical and Computer Engineering (ETF, FON, PMF or similar)
- Recent University graduate with 0-1 years of experience; experience in relevant internships is preferred
- Exposure with software programs such as tools like JIRA, TestRail, TestLink, Bugzilla and automation testing tools.
- Strong organizational skills to include multitasking and time management skills.
- Ability to analyze data and make determinations from it for problem resolution.
- Ability to identify and recommend areas for improvements and preventive measures.
- Knowledge and understanding of software programs
- Excellent verbal and written communication skills (fluent in English, both written and spoken)
